

OHIO UNIVERSITY MTESOL PROGRAM

About Us

Founded in 1970, the Department of Linguistics at Ohio University offers a 1-year Master of Teaching English to Speakers of Other Languages (MTESOL) with a Technology-Enhanced Language Teaching Certificate (TELT) option. The degree requires just two regular semesters of graduate study and prepares students to start or enhance their professional careers.

Program Description

The program is ideal for foreign practicing elementary, secondary, & post-secondary EFL teachers who want to upgrade their qualifications and develop their English language teaching expertise through two residential semesters in the United States. The program is also a great fit for former and current US participants in language centers or government-sponsored EFL programs overseas. And it is the perfect way for students who want to start a TESOL career overseas.

Why choose OHIO?

- Hands on experience in both F2F and TELT teaching practicums
- Innovative materials production with talented ESL specialists (e.g., international online projects)
- Cutting edge training in English Language Teaching and Technology Enhanced Language Teaching
- Research experience in language teaching in collaboration with our professors

AND...

- A fulfilling student life on one of the most beautiful and safest college campuses in America!

Focus on your passion!

MTESOL students are encouraged to pursue their own areas of interest by working closely with their professors.

Special Opportunities:

- Technology-Enhanced Language Teaching (TELT) Certificate
- Supervised internship opportunities at local K-12 schools
